

# Activating Eventlink Contact Points

Log in to your Eventlink account and hover over your name in the upper-right corner. When the menu opens, choose Manage Profile.

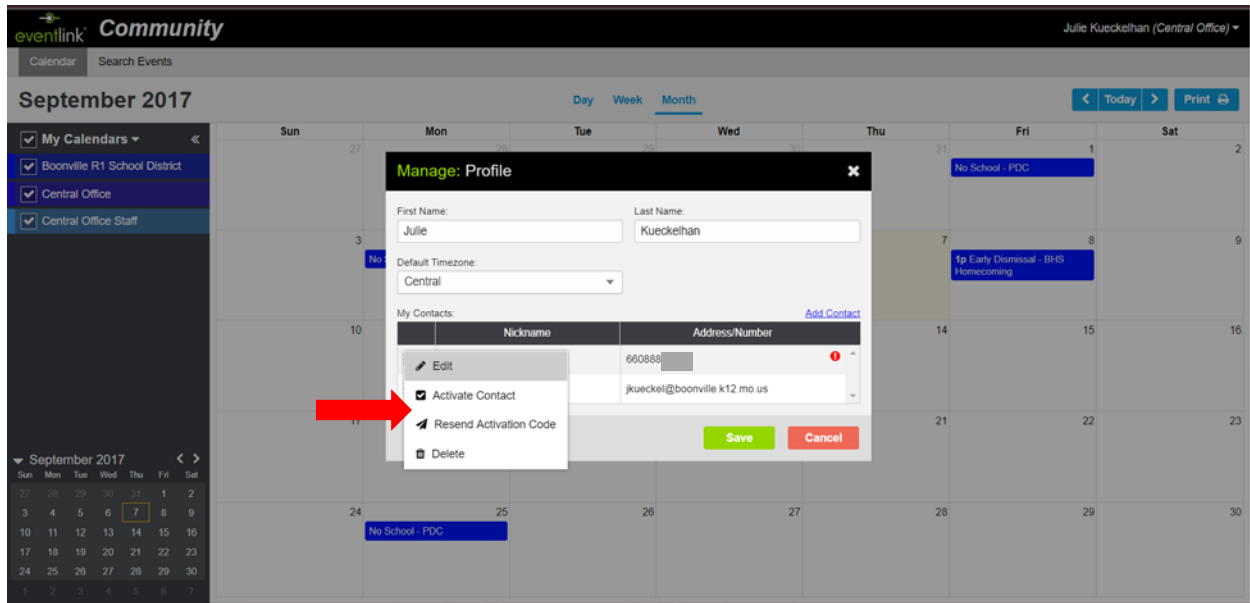

If either of your contact points are inactive, you will see a red circle with a white ! in the center. (I believe you will also get a message when you log on to Eventlink that you have inactive contact points.)

# Activating Eventlink Contact Points

When you first entered your cell phone and/or email address, you should have gotten a text or email with an activation code. If you did not receive it or do not still have the message, choose Resend Activation Code. If you have the code, choose Activate Contact.

Type the code in the box and click Activate.
