

HAZARDOUS MATERIALS

To promote the health and safety of the students, staff and patrons of the district, and to ensure that hazardous materials are handled appropriately, the Board of Education of the Boonville R-I School District directs the administration, under the guidance of the superintendent, to develop procedures that address the purchase, storage, handling, transportation and disposal of hazardous materials for all school facilities and operations of the district.

The Board directs district staff to avoid using hazardous materials to the extent feasible and to minimize the quantities of such substances used by or stored in the school district. In addition, district employees shall follow the procedures developed by the administration and shall take the necessary precautions recommended by manufacturers' warnings when handling or transporting hazardous materials.

The procedures developed by the administration shall comply with all local, state and federal laws and regulations that pertain to the proper management of hazardous materials. The superintendent or designee is responsible for identifying any substances that may be hazardous and ensuring such substances are properly disposed in a state-approved facility or landfill.

Emergency Plans

The superintendent or designee will include in district emergency plans appropriate responses and evacuation plans for situations where hazardous materials threaten the health or safety of persons on district property or when hazardous materials on district property threaten the health or safety of people in the surrounding area.

Asbestos

The district will use appropriately accredited professionals and laboratories and will follow all federal and state laws regarding the identification, management and abatement of asbestos in district buildings.

The superintendent will designate an employee to supervise the implementation of the district's asbestos management plan and federal laws regarding asbestos management in the district. The employee designated will receive adequate training to perform his or her duties as required by law.

Hazardous Chemicals

The superintendent or designee will provide information to district employees about the hazardous chemicals used in their workplaces by developing, implementing and maintaining a written chemical hazard communication program. Employees will be provided appropriate training and safety devices when handling these materials.
