

EMERGENCY PLANS/SAFETY DRILLS
(Fire/Explosion)

Fire/Explosion -- Any fire or explosion resulting in damage or potential for damage to school property or presenting a danger to life. Such incidents would also include possession of a bomb or incendiary device.

Procedure

In the event a fire or an explosion occurs at the school facility, the following procedures are to be followed:

The principal will determine if the fire/explosion endangers the school population.

If *yes*, the evacuation plan will be implemented including the following steps:

1. The building principal or designee will contact emergency services and the building level crisis team, provide them with any necessary information and inform the superintendent's office of the situation.
2. The school's fire alarm system is to be activated.
3. At that time, teachers should begin the orderly evacuation of the classes in the manner determined by the school's evacuation plan to a designated safe area.
4. Students shall remain in the designated safe area until law enforcement and fire personnel have extinguished the fire and the building is safe for return.
5. The principal or designee will direct any other action as directed by the on-scene commander.

If *no*, the following will be implemented:

1. Staff will be alerted on a need-to-know basis.
2. The principal or designee will determine and direct any other action as required.
